UNITED STATES FOREIGN TRADE

SUMMARY REPORT
FT 950-I

JANUARY 1960

FOR RELEASE
April 4, 1960

IMPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the decrease in United States general imports from the all-time record total of \$1,477.8 million in December 1959 to \$1,137.4 million in January 1960 reflected decreases in imports from all areas. Changes in the dollar value of general imports from the several areas between December 1959 and January 1960 were as follows: Western Europe, from \$464.8 to \$352.9 million; Latin American Republics, from \$353.0 to \$252.4 million; Canada, from \$288.7 to \$218.0 million; dependencies of Western Europe, from \$93.4 to \$71.0 million and "all other countries", from \$277.9 to \$243.2 million.

The Bureau also stated that decreases were reported in imports from both O.E.E.C. and sterling area countries from \$47.0 to \$34.5 million and from \$254.8 to \$195.5 million, respectively. Decreases were reported in general imports from all continents.

The decrease in general imports from Europe, from \$471.7 million in December 1959 to \$359.0 million in January 1960, was largely due to lower levels of imports from individual countries of this continent, as follows: West Germany, from \$99.4 to \$70.2 million; United Kingdom, from \$103.6 to \$86.9 million; Italy, from \$44.0 to \$28.8 million; France, from \$45.0 to \$33.6 million; Belgium and Luxembourg, from \$41.3 to \$34.1 million;

Switzerland, from \$19.6 to \$13.0 million; and the Netherlands, from \$20.1 to \$14.9 million. The substantial decline in imports from Canada, from \$288.7 to \$218.0 million, accounted for most of the decrease in imports from North America, from \$429.7 to \$335.7 million. However, sizable decreases were also noted in imports from Guatemala, from \$13.1 to \$5.3 million, and the Netherlands Antilles, from \$26.9 to \$21.8 million. Imports from South America fell from \$251.3 to \$166.5 million as noticeable decreases occurred in imports from Brazil, from \$66.5 to \$27.7 million; Venezuela, from \$96.3 to \$72.7 million; Colombia, from \$30.1 to \$18.6 million; and Chile, from \$25.8 to \$18.9 million.

Imports from Asia fell from \$235.8 to \$212.5 million as decreases in imports from Japan from \$107.8 to \$93.8 million; Kuwait, from \$14.6 to \$6.1 million; and the Federation of Malaya, from \$17.7 to \$9.9 million, were partly offset by gains in imports from the Republic of the Philippines, from \$14.7 to \$22.0 million and the Republic of Indonesia, from \$15.0 to \$21.6 million. Largely as a result of reduced imports from Ghana, from \$8.7 to \$1.7 million and the Belgian Congo, from \$9.0 to \$4.8 million, imports from Africa fell from \$60.7 to \$41.5 million. Owing chiefly to a drop in imports from Australia from \$20.7 to \$14.0 million, imports from Australia and Oceania fell from \$28.7 to \$22.2 million.

EXPLANATION OF STATISTICS

COVERAGE: Import statistics include merchandise imported by government agencies as well as by private importers, but exclude American goods returned by the United States armed forces for their own use. United States trade with Puerto Rico and United States possessions is not included in this report but the import trade of Puerto Rico with foreign countries is included as a part of the United States import trade. Merchandise shipped in transit through the United States between foreign countries is not included in import statistics.

COUNTRY DEFINITION: Though the country which should be reported in the statistics as the country of origin is defined as the country where the merchandise was grown, mined or manufactured, the country actually shown in the statistics may in a number of cases represent some other country, such as the country of purchase, lading, or the country in which mixed lots of various origin are consolidated. It follows, therefore, that imports from such merchanting or transhipment countries are likely to be overstated and imports from other countries correspondingly understated.

VALUATION: Import values are, in general, based on market price or selling price, and are, in general, f.o.b. the exporting country. They exclude United States import duties. None of the values have been adjusted for changes in price level.

EFFECT OF SAMPLING: Formal entry shipments valued less than \$100 and informal entry shipments valued \$250 or less (less than one percent of total import value) are estimated by sampling. The estimated values are included in the area, continent, and country totals in the table. For further information regarding the sampling procedures, see the "Explanation of the Sampling Procedure for Estimating Low Valued Imports" in the foreword of Report No. FT-110. The variability in the import figures due to sampling is no more than three percent or less than \$50,000. The largest variation from rounding of figures is \$50,000.

Further information regarding coverage, country definition, valuation, etc., is contained in the "General Explanation" in foreword of Report No. FT 110. For complete statement, see the foreword in Foreign Commerce and Navigation of the United States.

Prepared in the Bureau of the Census, Foreign Trade Division

UNITED STATES GENERAL IMPORTS, BY COUNTRY OF ORIGIN: JANUARY 1960 AND SELECTED PERIODS

(Value in millions of dollars. N.e.c. indicates not elsewhere classified. General imports are a total of imports for immediate consumption plus entries into bonded warehouses. Figures for 1960 are as originally issued and have not been revised to include published corrections. Figures for 1959 include revisions published with the December 1959 reports, or earlier, but do not include revisions published during 1960. See "Explanation of Statistics" for information on sampling procedures and effect thereof on the data shown.)
